WEDNESDAY, SEPTEMBER 3, 1883

THE UTAH COMMISSION.

The following communication was received to-day at the Interior Department from A. B. Carleton, at Salt Lake, addressed to the Secretary: "In the absence of my associates of the Utah Commission, who are on a few weeks' vacation, I take the liberty of addressing you in their belief, as well as my own. Hitherto we have paid but little attention to many false statements of the press, emanating from this city, but I find in newspapers what purports to be statements made by Hon. Edward Pierpont to President Arthur, which ought not to go unnoticed. If the honorable gentleman made the statements, he has certainly gathered an immense crop of misinformation. I only wish to say now, in behalf of the Commission, that every charge or innuendo, that gentlemen composing this Board have been improperly influenced, or have failed to discharge their whole duty under the law to the best of their ability and judgment, is based upon information willfully and wickedly false. This Board is charged, under the new law, with the duty of excluding all polygamists from voting and from eligibility to office. This is the full extent of our authority under the law, and in this our work has been completely successful. We have excluded some 12,000 polygamists from the polls, and at the November elections of 1882 and many municipal elections since that time, and at the general election in August, 1883, embracing about 900 officers who were elected, we have excluded all polygamists from eligibility. In short, the Commission has strictly and stringently executed the law of Congress, and stretched the legal tether to its utmost tension, in order to make it as effective as possible; inasmuch that the Mormons have sued members of this Board in ten several cases, for what they allege to be in excess of authority against them. I wish you to consider this as an official communication, and bring it to the notice of the President as early as possible.

STATE ELECTIONS IN 1883.

New York will elect a Legislature and minor State officials.
Ohio will elect a Governor, Legislature, etc.
Pennsylvania will elect a State treasurer.
Massachusetts will elect a Governor, Legislature, etc.
Connecticut elects a full House and half the members of the Senate.
Minnesota elects a Governor, etc.
Iowa elects a Governor, Legislature, etc.
Virginia will elect a Legislature.
New Jersey will elect Governor, Representatives and one-third of her Senators.
Maryland elects a Legislature and Governor.
Mississippi will elect a Legislature.
The effect of the elections in several of the above State will have a telling influence upon the next Presidential contest.

EDITORIAL NOTES.

The London *Lancet* calls attention to the necessity of guarding against overwork in the education of children, and declares that no growing child should be kept longer than half or three-quarters of an hour at one task, or even the same description of work. This is about as long as the attention of young children can be steadily directed to one and the same subject. A teacher who can fix and hold their attention for such a length of time, may well be satisfied. To persist in his efforts after their attention begins to flag has a tendency to weaken the faculty, rather than to strengthen it. The pupils should be allowed to find relief in some other study.

The Sacramento *Bea*, in speaking of the Democratic effort to oust Warden Ames and his subordi-

nates from the California State Prison, says: "The Court does not believe the accused Directors (State Prison) were guilty of fraud in office, or that they knowingly encouraged any wrong-doing about the prison. Still, they"—er—well, the fact is, the administration is being sorely pressed by its friends who are out, and must do something, you know. Gentlemen, please do not block the gangway; don't you see there are persons waiting to come on board?"

Don Carlos, the Spanish Pretender, who is now in the United States in speaking of Royal probabilities in France says: "I see no probability," he said "that the Legitimists will ever again succeed in placing a Bourbon on the throne of France. Republicanism has now had control so long that the people have acquired habits of thought and sentiment in consonance with its theories, and when such habits have once been established and the national temper has settled down to them there is little hope of arousing the nation to subvert their influence."

WESTERN DISPATCHES

(PRESS DISPATCHES TO THE GAZETTE.)

Villard and Party Aground.

ASTORIA, Or., September 4. The steamer Queen of the Pacific, with the Villard party on board, is aground on Clatsop Spit, inside the Columbia bar. Great excitement prevails as the vessel is grounded at high tide, and fears are entertained that it will be impossible to get her off. The Queen struck the Spit close to where the Republic was wrecked. All the passengers have been safely removed, Captain Perkins and crew remaining on board. Two tug boats will try to pull the vessel off at high tide to-morrow. Captain Perkins offers them \$50,000 if they succeed in getting her off.

A Fatal Land Fight.

STOCKTON, September 5. Patrick Breene, who had taken possession of a claim of a settler named Markey, on the Mokelumne, was killed yesterday evening. Markey had been absent for some time, and Breene was placed in possession of the land by an agent of Charles McLaughlin, the claimant under the railroad company's title. When Markey returned, he attempted, with some friends, to gain possession of the property, but was opposed by Breene from the inside of the house. In the struggle that ensued, the latter was shot, but by whom it is not known.

The Florence Committee.

FLORENCE, Arizona, Sept. 4. At 2 o'clock to-day the citizens held a meeting to consider the case of Frank Carpenter, the accomplice of Redfield and Tuttle who were lynched yesterday for robbing the Riverside stage and murdering the express messenger. Carpenter made a statement mainly devoted to explanations and denials of Tuttle's confession, nothing of importance being developed. At the close of the interview a citizen said: "You may thank your stars, Frank, you were not banged with Joe and Len." "Yes," he replied, "I fully expected I would be."

Another Steamship Aground.

PORTLAND, Or., September 5. News is just received that the steamer Columbia, owned by the Pacific Coast Steamship Company, has grounded on Martin's Island, in the Columbia river. The vessel at the time, was groping her way down the river in a heavy fog.

A Stranger Garroted.

SAN FRANCISCO, September 5. William Hanna of Cleveland, Ohio, who is visiting this city, was garroted at 1 o'clock this morning, by three hoodlums in an alley off Kearney street, and robbed of \$20. A police officer arrested one of the hoodlums, who gave the name of Peter Stanley.

TELEGRAPHIC BREVITIES.

—Forest fire in Maine.
—Boston is short of water.
—Heavy frost in the Hudson river valley last night.
—Dakota's Constitutional Convention met yesterday.
—The DeMolay Commandery reached Louisville yesterday and was feted.
—Butterworth & Co., shoe dealers, failed in Cincinnati yesterday for \$100,000.
—Twenty five thousand people went through the gates of the Louisville exposition last night.
—Scalpers are selling tickets from St. Louis to Cincinnati for \$1.25 and to Louisville for 50 cents. The war is spreading, and trains are crammed with people.
—A train on the St. Louis & Evansville railroad, on board of which was a company of Illinois State militia, ran into a bunch of cattle, killing nine and wounding 15 of the soldiers.

EASTERN DISPATCHES.

(PRESS DISPATCHES TO THE GAZETTE.)

Must Bury Their Wires.

WASHINGTON, September 5. All leading telegraph companies whose lines enter this city, including the Western Union, American Rapid and Baltimore & Ohio, have recently made application to the District Commissioners for leave to erect new lines of poles or reset old lines in various parts of the city. These applications have all been denied upon the ground that poles and wires disfigure the streets and interfere with growing trees. The request of the Western Union, which was referred to Captain Greene, was returned with the following indorsement: "Not recommended. In place of erecting new and larger poles, this trunk line should be placed under ground without delay." It is understood that Major Lydewer and Captain Green now have under consideration plans for an underground system for wires within city limits, and that the District Telephone Company will shortly begin the work of laying wires underground for the purpose of experiment.

Answer Filed.

WASHINGTON, September 5. In the case of the manager of the New Orleans Lottery Co., against the Postmaster-General for \$100,000 damages, in issuing an order to prevent the delivery of letters addressed to him, etc., Postmaster-General Gresham filed his answer. He made a general denial of the charges. He alleges Postmaster-General Key was satisfied after hearing evidence in the case, that the plaintiff was conducting a scheme for obtaining money through the mails by means of false pretenses, and that he (Gresham) refused to revoke Key's order, but on the other hand strictly enforced it. Gresham pleads his duty in enforcing the order originally issued.

The Official Guillotine.

OMAHA, NEB., Sept. 4. Paul Vandervoort, the Chief Clerk of the Railway Mail Service at Omaha for nine years past, has been removed by Postmaster General Gresham. Great indignation is expressed here as it is done on account of Mr. V's absence on account of being Grand Commander of the Grand Army of the Republic. Under the late Postmaster General Howe, he had permission, and under Gresham, he only made one trip, and that with permission and without pay. He had no notice from the Department until his successor walked in. He has accomplished a great work for the service, and his removal is considered a great outrage.

An Old Suit Settled.

BOSTON, Sept. 5. In the Supreme Court to-day, a decision was rendered in the suit of the Union Pacific Railroad Company vs. the Credit Mobilier of America, arising out of the building of the road by the Credit Mobilier from a suit at law to recover \$2,600,000 due, claiming fraud in the fulfillment of the contract. The full bench decide there was no construction of fraud, and entered judgment against the railroad company.

Picked Up at Sea.

NEW YORK, September 4. The steamship Macedonia which arrived to-day, reports the taking off of the Swedish bark David, the captain's wife and two children, the mate and wife and a part of the crew. The captain, second mate and carpenter were washed overboard before the Macedonia sighted the bark.

A Double Murder.

PHILADELPHIA, September 4. The janitor of the Colored Grammar school building on Sixth street, above Lombard, discovered this afternoon the bodies of two colored infants in a pool in the rear of the building. Both waifs were apparently about 5 years and three months old.

FOREIGN DISPATCHES

(PRESS DISPATCHES TO THE GAZETTE.)

France and China.

PARIS, September 5. The Chinese legation is hostile without any official information regarding the report of the massing of Chinese troops on the Tonquin frontier. It is admitted, however, by members of the embassy that if the French Asiatic squadron has been charged with the duty of notifying China of the signing of the Hue treaty, the situation might be greatly complicated thereby.

American Ministers Feasted.

LYONS, France, Sept. 4. Messrs. Martin and Sargent, United States Ministers to France and Germany, on their way to Lepuy to attend the unveiling of the statue of Lafayette on Thursday, were entertained with a banquet here to-day. Several political and commercial notables were present.

Will be Asked to Explain.

PARIS, September 5. The French Cabinet has decided that upon his arrival in Paris, Marquis Tseng, the Chinese Ambassador, be requested to explain the reason for the

movement of Chinese troops to the Tonquin frontier. The Ministry is seriously weighing the prospect of war with China, which, even now, is considered by no means impossible. Admiral Peyson, the Minister of Marine, remains at Paris to superintend the dispatch of reinforcements to the French contingent at Tonquin.

The French Want Free Trade.

LYONS, September 5. At the banquet given the United States Ministers, Morton and Sargent, yesterday, several speakers expressed the wish that the United States would adopt the principle of free trade, and conclude a treaty of commerce with France on that basis.

War Considered Certain.

LONDON, September 5. The Standard's Hong Kong special states that the reported crossing of the Tonquin frontier by the Chinese troops is as yet unconfirmed. War, however, is considered at Hong Kong as certain to ensue, unless the French Government fully recognize the supremacy of China.

A Stranger Sunk at Sea.

HALIFAX, September 5. A large unknown steamer sunk in 600 fathoms of water, four miles off Indian harbor, Guysboro, with dismasted sails set. A boat and house were picked up, but had no name on them.

TELEGRAPHIC BREVITIES.

—A survey is being made from Rawlins, Wyoming, to Yellowstone Park for a railroad.
—At the Chicago Exposition, which opens to-night, there will be a fine display of California fruit.
—Frost damaged Massachusetts a quarter of a million last night. The tobacco crop suffered most.
—E. Kennedy of the Youngstown, Ohio, bank has disappeared. He is short \$20,000. His friends will make it good.
—Jay Gould gave a brief history of his business life before the Senate Subcommittee on Education and Labor to-day.
—Prof. Varley, electrician to the Electric International Telegraph Company, which laid the first cable across the Atlantic, is dead.
—The Ohio Democratic State Central Committee was in session all night but nothing is known as to the matter under consideration. Members strenuously deny that it was ever contemplated that Hoadley should be withdrawn from the ticket.

MISCELLANEOUS.

IT LEADS ALL.

No other blood-purifying medicine is made, or has ever been prepared, which so completely meets the wants of physicians and the general public as

Ayer's Sarsaparilla.

It leads the list as a truly scientific preparation for all blood diseases. If there is a lurking taint of Scrofula about you, it will dialogue it and expel it from your system. For constitutional or scrofulous Catarrh, AYER'S SARSAPARILLA is the CATARRH true remedy. It has cured numberless cases. It will stop the nauseous catarrhal discharges, and remove the sickening odor of the breath, which are indications of scrofulous origin.

"Hutto, Tex., Sept. 23, 1882.

ULCEROUS SORES. "At the age of two years one of my children was terribly afflicted with ulcerous running sores on its face and neck. At the same time its eyes were swollen, much inflamed, and very sore. Physicians told us that a powerful purgative medicine must be employed. They united in recommending AYER'S SARSAPARILLA. A few doses produced a perceptible improvement, which, by an adherence to your directions, was continued to a complete and permanent cure. No evidence has since appeared of the existence of any scrofulous tendencies; and no treatment of any disorder was ever attended by more prompt or effectual results.

Yours truly, R. F. JOHNSON."

WEDNESDAY, SEPTEMBER 4, 1893

NOTICES

Fifteen prisoners in the county jail.

Eight cars of fat cattle went west to-day.

Five cars of emigrants went east this morning.

A vag by the name of Reardon was sent up for 20 days yesterday.

It is reported that the family of Dr. E. B. Harris of Virginia City, will locate in Reno.

Six bars of bullion and two large sacks of silver dollars went below this morning by Wells-Fargo.

The case of Brown vs. Evans was argued in the Supreme Court yesterday by C. S. Varian and R. H. Lindsay.

"Sweet Violets" (sheet music) at Nabby's, No. 27 Commercial Row. The number at 7, 9, 11, 1, 3-55, 70, 85, 86, 84.

The west-bound passenger train was over two hours late this morning. The delay was occasioned by trouble on the D. & R. G. Railroad.

The daily register at the Palace Hotel evidences the fact that the traveling public knows where to go for a good meal or bed, or a glass of pure liquor.

If you are in need of dry-goods don't pay two prices for an inferior article, but go at once to the store of F. Levy & Bro., and you will be surprised how much you can buy for a dollar.

There is sufficient grain piled up in the back end of A. Lindley & Co.'s store to run all the livery stables in town for the next six months. Sierra valley butter in rolls or in kegs at bed-rock prices. Call in.

San Francisco people say that Boatswain's beer is fast supplanting the famous Milwaukee and St. Louis beer; to be had by the dozen, single bottle or glass at the wholesale and retail liquor store of Chiblovich & Co. on Commercial Row.

The work being turned out by Knowles & Bainbridge is acknowledged to be as good as material and mechanical skill can make it. Call and examine those ranges; it is cheaper to cook by one of them than to cook by a camp-fire.

The family grocery store of J. K. Everett, on the corner of Second and Sierra streets, is where can be seen, excepting fresh beef and strawberries and cream, everything you need to eat. If you don't see what you want, ask for it, and it will be sure to be produced.

No man can be successful in any kind of business who does not personally supervise his affairs in every department, and no man understands this better than J. J. Becker, at whose place of business you can get more comfort out of 124 cents than in any place in town.

Some people have an idea, that in order to obtain a superior article of anything, it is necessary to send a long way for it, but the retail dealers of larger beer, have become convinced that Geo. Becker of the Pacific Brewery, is making as good an article of beer as can be found anywhere.

San Dequille on Nevada Mirage. The California shooting team made poor shooting last Sunday. They complain that the heat of the sun caused a mirage that disturbed their aim. If they complain of a bit of mirage such as they have down at the sea level, what will they do up here at the Carson range, situated in an alkali plain? On the best days, the targets at which our Nevada snipers never remain stationary for a moment. Apparently they jump up and down from eight to ten feet, and to right and to left and left from four to six feet. All that remains to be done is to take them on the wing. If the Californians have not had practice at a target which is darting about like a woodcock, they will fire badly at the Carson range.

A New Cattle Disease. The Yreka, Cal., Journal of a recent date says: We learn that a strange disease affects the young cattle at Squaw Valley, in the Cloud river section, by which calves bleed at the nose, and soon die. M. H. Wells lost some fifteen calves, and Joe Cavanaugh lost one. It is not the blackleg, epizootic, or anything of such character, and may possibly result from the grass or feed in that locality. If the disease should prove contagious and spread, the cattle men will be heavy losers, as there are many head of young stock on the Summer ranges of Cloud river and vicinity.

Shooting Proclamation. The sharpshooters at the Bay are now talking about a little turn in stocks, says the Bodie Free Press. They say that Mackay and other solid men are preparing for some sort of a deal. A turn of the right sort would be highly appreciated about this time. It will not be long before Thanksgiving Day, when the high-priced turkey will run out and insist upon being purchased.

Fatally Injured. Samuel Hansen died yesterday morning at a ranch near Eureka, from the effects of a blow from the snapping of the chain of a Petaluma bay horse. His skull bone was crushed. He lingered unconscious for 14 hours.

WARDEN BELL'S REPORT.

" " " July..... 521 80

" " Aug. 1 to 13 inclusive..... 2,000 79

Expense, discount for cash (3 per cent.) during 6 months..... 100 33

Total..... \$27,866 28

Profits for 6 mths. per above..... \$469 24

The Warden also sends the Board of Prison Commissioners the annexed resume of other than statistical matters:

During the month I have extended the stone wall on the east side of the prison yard 160 feet, averaging 10 feet high, and have laid 250 feet of six-inch coping on the same. This not only adds to the security of the yard but materially to its appearance and enables me to dispense with the services of one guard in the future.

I also append balance sheet of the boot and shoe factory for six months, from February 14th to August 14th, 1893, which I am pleased to say, shows a small profit.

On March 1st I raised the price of goods about 5 per cent. throughout and reduced salaries \$50 per month. I have investigated the market and purchased goods to the best advantage, receiving discounts usually allowed to factories; also discounts for cash payments, which amounts to a very considerable item.

There has been employed in the boot and shoe factory for the six months, an average of 47 men per day. This shows less than 6 1/2 cents per man per day for labor.

The Korean Embassy in San Francisco.

The Korean Embassy were visited yesterday by Mayor Bartlett, who extended to them a welcome to San Francisco. An hour later General Schofield and suite called, after which deputies from the Chamber of Commerce and Board of Trade waited upon the Embassy, requesting them to meet the two bodies as representatives of the commercial interests of San Francisco. The Chief Ambassador, in accepting, said no invitation had given him so much pleasure, coming as it did from the representatives of every State. A formal reception will be held at the Chamber of Commerce on Thursday afternoon next.

PERSONALS.

Governor Adams went east on this morning's express.

Mrs. M. D. Hatch of Carson came from below this morning.

Senator P. N. Marker arrived from the Bay this morning.

S. A. Doyle, postmaster at Millford, was in town yesterday.

R. P. Keating of the Comstock came from San Francisco to-day.

Mrs. J. D. Hammond and children came down from Carson to-day.

Warren Wasson of Carson was a passenger for Sacramento on this morning's express.

The wife and children of the Rev. William Lucas arrived from the east this morning.

Captain A. G. Griffin, Superintendent of the Antelope mine, returned from the East to-day.

David Johnson and wife of Susanville came from below yesterday and left for home this morning.

Billy Green, the Surprise valley tender, was in town yesterday, having brought in a load of flour.

G. W. Bryant, the melter and refiner at the Carson Mint, with his family, went below on this morning's train.

It is learned with regret that Frank Perkins of the Palace Hotel is worse, there being but small hopes of his recovery.

George Davis of the Carson Mint and A. DeNeuf went west this morning, on their way to Soda Springs, in Placer county, Cal., for a few weeks' hunt.

Hon. W. M. N. Johnson, a member of the last Nevada Assembly, occupies a desk in the freight department of the Central Pacific railroad at San Francisco.

Mrs. Bullenbach, who has been suffering for several months from an injury on the head, received by the upsetting of the Idaho stage, left Reno this morning, accompanied by her mother, for San Francisco, to have a surgical operation performed.

Jack Fitzgerald, who formerly managed the Palace Hotel, so successfully, has been sent for to Portland to come and look after the business until Mr. Perkins recovers, or Al. White, who is on a visit to Kentucky, returns. Jack will be here to-night.

The Effects of Bad Company.

A Kentucky paper of Democratic morals tells the following story: An Irishman dropped into a saloon and was very much taken with a parrot which hung in a cage near the window. "Phwat is that?" he asked. "That's a parrot, Pat," replied the vender of stimulants. Just then the parrot chimed in with: "Yes, I'm a parrot, and you bet I'm h—l!" This so delighted Pat that he offered to buy the bird. "Phwat will yez take for it?" he asked. "Fifty dollars," "Howdy Moses! that's too much; have yez any eggs?" The saloon-keeper saw a chance for a joke and answered yes. "How'll ye sell 'em?" "Two for five dollars," Pat pulled out his pocket-book and deposited the amount named. The saloon-keeper took it and went into a back room, from whence he soon reappeared with two large eggs, which Pat pocketed and walked off. Nothing was seen of him for about two months, when one day he came in, and, leaning over the counter, whispered to the saloon-keeper: "I want to spake to yez a minute." "Well, fire ahead," "You'd better be after watching that burrod of yours." Why, Pat? "Well, from me experience wid thim eggs, I believe the cnythurs' been associating wid wicks!"

A Dangerous Compound.

A girl was found lying insensible near a Vienna hospital a short time ago. She was breathing, but to all appearance dead. When taken to the hospital, the doctor pronounced the case to be one of poisoning. When brought to herself again, she declared that after the sparing use of some new rouge, a strange sensation came over her, and she told her mother she must go out for a little air. On reaching the hospital she fainted, and was found in that condition. The rouge being examined, was found to contain several poisonous ingredients, and no doubt has been the cause of many deaths.

Another Good Score.

Following are the scores made yesterday at the Carson range.

Justice's Court.

Frank Levy, the man who was convicted of selling whiskey to the Indians, was this morning sentenced by Justice Young to 40 days in the county jail.

A civil case of John Dixon vs. Patrick Kelly, is on trial to-day in the county court.

FALL RIVER, Mass.—Mr. B. Riddell, druggist of this city, says that the conqueror of pain, St. Jacobs Oil, is the best remedy that he ever handled.

SOMETHING NEW.

Condensed Feed For Milk Cows—Milk-Producing Food.

The Antioch, Cal., Ledger says: Last year a farmer improvised a small silo by sinking a molasses hoghead into the ground in his barn cellar. He cut up all his corn fodder with a hay cutter, supposing he had enough to fill four hogheads, but on packing he found that it wouldn't fill one. He then bought of a neighbor as much as one horse could draw, and still there was room. He then cut up the stalks from a piece of sweet corn, and with a lot of rowen manure, added to fill his hoghead. He made a close fitting cover, and with a jackscrew set under one of the floor timbers, pressed it down as tight as possible. In the middle of December he opened his silo and found the corn as sweet and fragrant as when put in. From the hoghead he fed one cow half a bushel of ensilage morning and night for two months, and considers it the best milk-producing food that can be fed. This year he proposes to fill the hoghead with oats cut just as they are in the milk.

Nature's Artistic Touches.

The meadows hereabouts, owing to irrigation, present some very pretty contrasts of color unknown elsewhere. When the alfalfa is first cut and raked into winrows it is a very dark green and the stubble a grayish cast when seen from a distance. As soon as the water is turned on, the tender leaves spring up and a delicate shade of green furnishes a beautiful contrast to the heavy color of the cocks of hay. The heaps of hay keep fading and the growing grass gets greener day by day, affording real pleasure to the lover of the beautiful who chances to live in sight of a sloping hillside meadow.

Valuable Improvements.

M. C. Lake is preparing a piece of ground a few rods back of the Lake House for a public grove. He is grading it and getting it ready for trees which will be planted this Fall. In connection with the grove he is making valuable improvements to the river bed, preparatory to building a bath-house, and a swimming bath. He will also have a rowing course and provide boats for the river. He will invest \$4,000 or \$5,000 on the place before snow flies. This improvement will make the Lake House one of the most attractive places in Western Nevada.

A Probable Suicide.

David Bain, a promising young druggist, died in Eureka, Nev., yesterday morning from an overdose of morphine, supposed to have been taken with suicidal intent. He had been on a protracted spree, and was crazed from the effects of drink. Deceased was a native of Eureka, Canada, aged 26 years. He was an old graduate of the Toronto School of Pharmacy.

At Last.

The opinion in the case of Steele et al. vs. the Gold Lead Mining Company, affirming the judgment of the lower Court, has been filed in the office of the Clerk of the Supreme Court. The opinion is concurred in by Judges Hawley and Belknap, Judge Leonard dissenting. This case has been in the Supreme Court for over three years.

Eggs for Winter Use.

A woman has discovered a novel method of preserving eggs for winter use. In Summer she breaks the eggs, pours the contents into bottles, which are tightly corked and sealed, when they are placed in the cellar, neck down. The contents of the bottles come out as fresh as when first put in. She puts a dozen eggs in each bottle.

L. O. O. F.

The members of Reno Lodge and transient brothers, are respectfully invited to attend the regular meeting of Truckee Lodge at 7:30 o'clock sharp. Grand Master Smith and other distinguished visitors will be there. H. P. NELLIGAN, N. G. F. C. UPDIKE, Sec'y.

The California Team.

Herman H. Bride and Joseph Burke, two young soldiers from Fort Bidwell, arrived in town last evening, on their way to San Francisco, where they go to compete for places in the California shooting team.

Of Interest to Business Firms.

The Supreme Court of California has decided that a firm cannot obtain judgment till after a full publication of notice of co-partnership by said firm.

Death of Porter Holmes.

Porter Holmes, who was formerly connected with the Crown Point, and later, with some of the Bodie mines, died a few days since at Mazatlan, Mexico, of yellow fever.

The Nevada City Murderer.

The case of John C. Patterson, convicted of the murder of Wm. F. Cummings, the Nevada City banker, came up for hearing in the California Supreme Court yesterday.

Perkins' Condition.

Frank Perkins is very low, but Dr. Dawson still entertains a hope that he will pull through.

RANCH FOR SALE.

A RARE CHANCE LARGE INVESTMENT.

One Hundred and Six
Thousand Acres.

THE WELL-KNOWN AND VALUABLE

CLOVER VALLEY RANCH

Located in

Humboldt County, Nevada,

FOR SALE!

4,000 Head of Graded Cattle.

84 Head American Horses, including 50

Fine American-Bred Mare & 6,000

Acres Fine Meadow Land, Capable of Producing

5,000 TONS OF HAY per ANNUM

290 ACRES IN ALFALFA, WELL IRRIGATED, producing five tons per

Acres, 28,000 acres under

fence.

MOWERS, REAPERS, FARMING

IMPLEMENTS.

With all the appliances of a stock and

grain farm to be included

in the sale.

The Whole Ranch Comprising One

Hundred and Six Thousand

and Acres.

CONTROLLING TWO HUNDRED AND

FIFTY THOUSAND ACRES.

THE CLOVER VALLEY RANCH, OR

as it is sometimes known, "The Iron

Point Stock and Grain Ranch," Nevada

embracing one hundred and six thousand

acres of land, is now offered for sale upon

terms which represent a liberal conces-

sion to the purchaser, and offers high in-

crements in the way of a safe, perma-

nent and profitable investment.

With this ranch will be sold four thousand

and head of stock cattle, now in splendid

condition, embracing thoroughbred Dur-

ham bulls, purchased at a cost of six hundred

dollars each. The entire herd is

composed of grades produced by crossing

the best American cows with the very

best thoroughbred Durham bulls ever

imported to this country. There are no

inferior animals in the herd, no Spanish

cattle or crosses from Spanish cattle.

These ranches embrace six thousand

acres of meadow land which will pro-

duce about five thousand tons of hay per

annum. There are two hundred and

eighty acres of alfalfa, and capable of

producing twelve hundred and

fifty tons of hay per annum. Twenty-

eight thousand acres of this ranch is now

under fence, redwood posts set sixteen

feet apart, with four barbed wires, nearly

new. Buildings attached to the ranch

consist of one good one story and a half

house, with four rooms, a stone cellar,

and stone dairy house, well built. Home

barn forty by one hundred feet, with stalls

for thirty horses. There is a splendid

creek of living water running through the

ranch; also, an excellent well of water

with two or three springs. Inside the in-

closure there are two springs from which

issue about twenty-five hundred gallons of

water, sufficient to irrigate twenty-five

hundred acres of land which lie below

them, and which may be subjected to irri-

gation at but little cost. Included in this

sale there are two thousand acres of fine

agricultural, and meadow land, about

seven miles northeast of the ranch build-

ings, upon which there are one hundred

and twenty acres in alfalfa finely growing.

This is a fine grain ranch, and will pro-

duce forty to fifty bushels of barley per

GENERAL NOTES.

Charles Orr, who has put up a small

quartz mill of the Bushman patent, on

a ledge in Blackhawk, Plumas county,

tells the National that the mill is run-

ning and is doing good work, grinding

about a ton an hour, and pulverizing it

as finely as possible. The pulp dis-

charges freely, and so far no serious

trouble in the working has been dis-

covered. The wear and tear on the

machinery—which was the objection

urged by quartz men—does not show to

any extent, and Mr. Orr is positive that

the new mill will be proved a perfect

success. It will be a grand thing if

such is the case, and add immensely to

the quartz industry in California.

A couple of frolicsome miners walked

into a restaurant in Salt Lake the other

day and called for something to eat,

and while the meal was being prepared

amused themselves by throwing bits of

crackers and pickles at the waiter and

occasionally shying a piece at the pro-

prietor, who requested them to desist,

and upon their failing to do so, arose to

enforce the order when both miners

bounced him. At this juncture the

brave wife of the restaurateur came

upon the scene, and producing a
